

# CampusLabs™ ERP System drives Academic Processes

### The Customer

INDRAPRASTHA INSTITUTE of  
INFORMATION TECHNOLOGY DELHI

Indraprastha Institute of Information Technology, Delhi (IIIT-Delhi) was created as a State University by an act of Delhi Government (The IIIT Delhi Act, 2007) empowering it to do research and development and grant degrees. It offers BTech, MTech and Doctoral programs. With a mission to be a centre of excellence in Information Technology education, training and research, the institute has earned a national and global reputation in a relatively short period of time. Its permanent campus, which is spread over 25 acres in Okhla, New Delhi, became operational in 2012. This campus encompasses the Faculty and Research block and eight research centres, several lecture halls, a recreation centre and a boys' hostel and girls' hostel. The All India Council for Technical Education (AICTE) recognizes IIIT-Delhi as an Institute of National Importance.

### Background

IIITD intended to implement an Academic ERP System across the institute in a phased manner. IIITD was looking for a solution that was reliable, and economical, while having the modularity for a phased implementation and the scalability to meet increasing requirements in the years ahead. The objective was to create a highly efficient 'paperless office' by fully automating the administrative & student processes.

### Challenge

The academic policies, fees collection procedures etc., were still evolving based on the needs of its students. Understanding the changing requirements, standardizing the processes and customizing the solution for such a need, were the key challenges that needed to be addressed.

### Solution

Ecole Solutions implemented CampusLabs™, a scalable and robust web-based Campus ERP System with modules such as Admission Management, Academics Administration, Document Management and Fees Management. After successful adoption of these modules, Hostel Management and Research Projects Management have been introduced to IIITD.
